BIGGER THAN ANY GRILL.
MORE COMPACT THAN ANY OUTDOOR KITCHEN.
MORE AFFORDABLE THAN YOU THINK.

BURN | OUTDOOR KITCHEN

The **BBQ BLOCK by BURN** is a clever, modular outdoor kitchen system that lets you design your perfect BBQ setup.

The idea is simple, each module is built to the same size and high-quality standard, but you choose exactly what you want to include.

Whether it's extra storage, a space for your gas bottle, a built-in fridge for chilled drinks, or even a beer tap, you can create a layout that suits your needs and space.

You can also choose your preferred grill type, whether it's gas or ceramic. It's all about flexibility and making your outdoor cooking area exactly how you want it, and all at a **great price**.

BURN | OUTDOOR KITCHEN

BURN has been building outdoor kitchens for years — long before they became the latest trend. Back then, big grills came with hardly any workspace, so we set out to change that.

Our **BURN** kitchens are fully modular, meaning you can expand or upgrade them even years after you've bought them. The same goes for the **BBQ BLOCK**. If you need more room, you can simply add another **BLOCK**, maybe one without a grill but with extra storage, or place it at an angle to create a unique outdoor kitchen layout.

Every **BLOCK** is designed to fit together easily, so you can build the perfect setup for how you like to cook and entertain. Plus, the **BLOCK** is part of the larger **BURN BBQ** range, so you can mix and match with other modules anytime. Try out the online configurator and see how easy it is to create your dream outdoor kitchen.

We've also configured some popular options on the next pages to show you how adaptable the range is and how affordable it can be comparing it to a fully fitted outdoor solution.

BURN | OUTDOOR KITCHEN

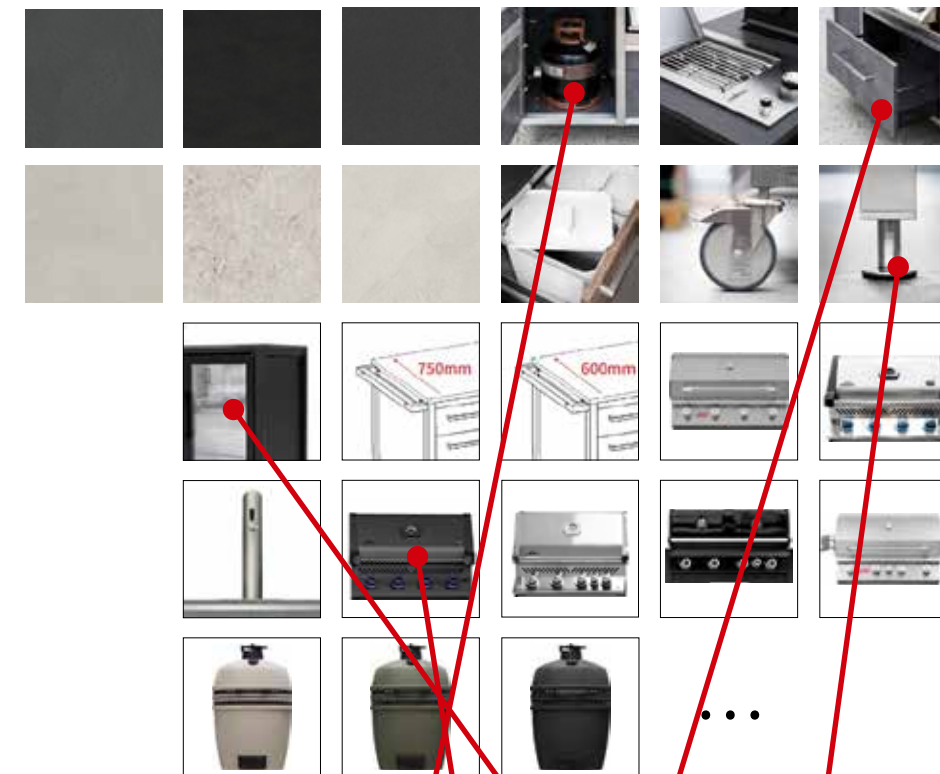

With our **easy-to-use online configurator**, you can design your ideal outdoor kitchen in just a few clicks. Every module is guaranteed to fit perfectly together, so you can mix and match exactly what you need — from storage and worktops to appliances and extra features.

It's the simplest way to create a fully personalised BBQ setup that's made to suit your space, your style, and the way you love to cook outdoors.

Ready to Fire Up Your Outdoor Cooking?

Design your perfect **BBQ BLOCK** setup using the app, then take the next step—send your unique code to us at richard@kslsudbury.co.uk or call us on 01787 378 250. We'll come back to you quickly with availability and a tailored price. **Don't wait**, your ultimate outdoor kitchen is just a click or call away.

You want maximum flexibility?

Then put your **BBQ BLOCK** on wheels. Of course, we also have feet and lots of body and frame colours and two worktop variants.

Everything we are showing you here is just a small selection of a huge range of options.

TAKE THESE 3 STEPS TO BBQ HEAVEN

1. To begin with the essentials: Which grill would you like? Gas, coal, small, large? You decide. Right from the start.
2. What's on the left side of your new **BBQ BLOCK**? Everything is possible – whether it's a door, drawer or refrigerator.
3. And on the right? Here, too, you have free rein. Do you like to grill with gas? Then use the space for your gas bottle. Or would you prefer drawers? A sink? Maybe even a beer tap? Everything is do-able!
